OPERATIONS, MAINTENANCE & PERSONNEL

The major maintenance base for our large offshore fleet is Mumbai, where all maintenance work is carried out, including 3000 hours check on its Bell 412 fleet of aircraft in our 6000 sqm state-of-the-art hangar. This facility meets international quality standards and maintains all relevant certifications from the Directorate General Civil Aviation (DGCA) as a CAR 145 approved maintenance organization.

There are 78 Pilots and 85 engineering personnel with 30 Technicians, 7 licensed AMEs for AW 139 Helicopters and 37 licensed AMEs on the Bell 412 Helicopter on its rolls.

GVHL has a total staff of 325 personnel, including pilots, engineers, safety, quality and commercial teams and all support staff.

AUDITS

GVHL is actively involved in regular and stringent audit activities from some of the most prominent oil companies in the world including British Petroleum, Total, British Gas, ONGC, Reliance, Dolphin Geo, CGG and Cairn, through their renowned auditing agencies like Hart Aviation, GSR, Airclaim Services, and Aviation Management Services. It is also fully compliant with all Indian Directorate General Civil Aviation

(DGCA) auditing schedules (Operations, Maintenance, Safety and Quality) and follows a rigorous Internal Audit program. Further, GVHL undergoes thorough, independent financial auditing on a quarterly and annual basis.

CLIENTS

Our offshore operations are dedicated to providing Air logistics services to the Oil & Gas industry majors like **Oil and Natural Gas Corporation (ONGC), Cairn India, Reliance Industries Limited (RIL), Transocean (TSF), Shelf Drilling, British Petroleum, Gujarat State Petroleum Corporation (GSPC), Baker Hughes, Japan Drilling Company (JDC)** and many more, under long term contracts with an outstanding market share of the offshore helicopter market in India.

Dolphin Geophysical Pte Ltd., Polarcus, Fugro, CGG VERITAS, Results Marine, Schlumberger & Western Geco have been our major Seismic partners for whom we have flown satisfactorily on the East and West Coast of India in the recent past and are hopeful for the same in the near future as well.

GVHL provides services to its clients under long-term contracts. These contracts range from one to five years with renewal options. Companies involved in offshore E&P activities have to use helicopter services extensively for Crew Change, Cargo and Medevac and recently we have started operating under Production contract with ONGC.

SERVICES

With a modern and technologically advanced fleet of helicopters, Global Vectra Helicorp Limited has a wide range of capability to provide essential onshore and offshore services to strategic sectors, including:

- Oil and Gas
- Geophysical Survey
- Corporate and VVIP flights
- Aerial Photography
- Religious Tourism
- Emergency services
- Underslung operations
- Power Grid Maintenance

GVHL's unblemished safety track record also makes it the preferred provider for a range of corporate, religious and leisure travel. It has world class maintenance facilities and highly skilled engineers and experienced pilots to ensure safe, secure and uninterrupted services to the nation.

BASES

GVHL has its main operations and maintenance base at Juhu Airport, Mumbai with sub-bases (at present) in various parts of India including: S. Yanam, Rajahmundry, Vishakhapatnam (Vizag), Vijayawada, Bhubaneshwar, Gadimoga, Porbandar, Itanagar, Cochin, Kakinada, Pondicherry, Barmer, Dimapur, Katra and Chandigarh.

SYSTEMS IN PLACE

GVHL is totally committed to maintaining the highest possible standards in its operations, maintenance and safety. GVHL introduced in India, a full and formal Safety Management System (SMS) as per international recommendations and in compliance with the requirements of the Global Oil/Gas Industry and International Civil Aviation Organisation (ICAO).

As part of our continuing effort to further enhance our management systems, we utilise an ERP (Enterprise Resource Planning) System from IFS AB, a Swedish company and one of the world's leading providers of business software. Through this system we have integrated the management data of Flight Operations, Maintenance Repair and Overhaul (MRO) processes, Quality Control, Logistics, Inventory Management, Human Resources/Payroll and Finance.

MISSION STATEMENT

To become one of the world's leading and preferred helicopter services providers. We deliver superior returns to our shareholders by tirelessly pursuing new growth opportunities while always ensuring our sustained profitability. Above all, we are committed to the safety of human life, whether with our customers, our own company or the society we work in. In recognition of this commitment, we deliver high quality, cost effective and safe helicopter services in the markets we serve. We are dedicated to creating a workplace that respects and values people from diverse backgrounds and enables all employees to do their work to the best of their capabilities.

OIL AND GAS INDUSTRY IN INDIA**INTRODUCTION**

The oil and gas sector is a core industry in India. It is of strategic importance and plays a pivotal role in influencing decisions across other important spheres of the economy.

In 1997–98, the New Exploration Licensing Policy (NELP) was envisioned to deal with the ever-growing gap between demand and supply of gas in India. As per a recent report, the oil and gas industry in India is anticipated to be worth US\$ 140 billion by 2016. With India's economic growth closely linked to energy demand, the need for oil and gas is projected to grow further, rendering the sector a fertile ground for sustained investment.

To cater to the increasing demand, the Government of India has adopted several policies, including allowing 100 per cent foreign direct investment (FDI) in many segments of the sector, such as natural gas, petroleum products and refineries. The government's participation has made the oil and gas sector in the country a better target of investment and today, it attracts both domestic and foreign investment, as attested by the presence of the likes of Reliance Industries Ltd (RIL), Cairn India, British Petroleum and Shell.

MARKET SIZE

Backed by new oil fields, domestic oil output is anticipated to grow to 1 MBPD by FY16 and domestic production now accounts for more than three-quarters of the country's total gas consumption.

State-owned ONGC dominates the upstream segment (exploration and production), accounting for approximately 60 per cent of the country's total oil output.

IOCL operates a network of over 11,000 kms of crude, gas and product pipelines, with a capacity of 1.6 MBPD of oil and 10 million metric standard cubic metres per day (MMSCMD) of gas. This is around 30 per cent of the nation's total pipeline network. IOCL is the largest company, operating 10 out of 22 Indian refineries, with a combined capacity of 1.3 MBPD.

INVESTMENT

According to data released by the Department of Industrial Policy and Promotion (DIPP), the petroleum and natural gas sector attracted foreign direct investment (FDI) worth in excess of US\$ 6.5 billion up to January 2015.

ADVANTAGES TO INDIA**GROWING DEMAND**

India is the world's fourth-largest energy consumer (2014); oil and gas account for more than 37 per cent of total energy consumption.

Demand for primary energy in India is to increase threefold by 2035 to 1,516 million Tonnes of Oil Equivalent from 563 million Tonnes of Oil Equivalent in 2012.

SUPPORTIVE FDI GUIDELINES

The government allows 100 per cent Foreign Direct Investment (FDI) in upstream and private sector refining projects.

The FDI limit for public sector refining projects has been raised to 49 per cent without any disinvestment or dilution of domestic equity in the existing PSUs.

POLICY SUPPORT

Government has enacted various policies such as the New Exploration Licensing Policy (NELP) and Coal Bed Methane (CBM) policy to encourage investments.

In a new policy released in 2013 enabled companies that have existing petroleum and mining licenses to apply for shale oil & gas licences.

WORLD'S FOURTH-LARGEST ENERGY CONSUMER

India's energy demand is expected to double to 1,464 Mtoe by 2035 from 595 Mtoe in 2013. Moreover, the country's share in global primary energy consumption is projected to increase two fold by 2035.

FOURTH-LARGEST CONSUMER OF OIL AND PETROLEUM PRODUCTS

Oil consumption is estimated to reach 4.0 mbpd by FY16, expanding at a CAGR of 3.2 per cent during FY08–FY16F. By 2025, India is expected to overtake Japan to become the third-largest consumer of oil.

FOURTH-LARGEST LNG IMPORTER IN 2013

LNG imports accounted for about one-fourth of total gas demand. India's gas demand is estimated to more than double over the next five years.

OIL SUPPLY AND DEMAND IN INDIA

DEMAND

- Oil consumption is estimated to expand at a CAGR of 3.3 per cent during FY2008–16F to reach 4.0 mbpd by 2016.
- Due to the expected strong growth in demand, India's dependency on oil imports is likely to increase further
- Rapid economic growth is leading to greater outputs, which in turn is increasing the demand of oil for production and transportation
- With rising income levels, demand for automobile is estimated to increase

- Backed by new oil fields, domestic oil output is anticipated to grow to 1.0 mbpd by FY16

SUPPLY

- In FY14, imports accounted for approximately 80 per cent of the country's total oil demand
- Despite being a net importer of crude oil, India has become a net exporter of petroleum products by investing in refineries designed for export, particularly in Gujarat

GAS SUPPLY AND DEMAND IN INDIA

DEMAND

Source: PPAC, BP Statistical Review 2014, Ministry of Oil & Natural Gas 2014, Aranca Research
Notes: F – Forecast, bcm – Billion Cubic Metres, CAGR – Compound Annual Growth Rate, * - Up until March 2017

Demand is expected to increase due to higher economic growth, ensure less dependency on imported crude and a desire to use cleaner fuel.

- During 2013-14, natural gas constituted about 7.8 per cent of the energy mix.
- With India developing gas-fired power stations, consumption is up more than 160 per cent since 1995.
- Demand is not likely to simmer down any time soon, given strong economic growth and rising urbanisation.
- Gas consumption is likely to expand at a CAGR of 21.0 per cent during FY2008–17F.

SUPPLY

India’s LNG imports are forecast to increase at a CAGR of 33 per cent during 2012–17.

- India had 47 trillion cubic feet of proven natural gas reserves at the beginning of 2014. Approximately 34 per cent of total reserves are located onshore, while 66 per cent are offshore.
- Domestic production accounts for more than three-quarter of the country’s total gas consumption.
- Imports constitute the rest; in 2014, imports of LNG stood at in excess of 17 bcm.
- India increasingly relies on imported LNG; the country was the fifth-largest LNG importer in 2014, accounting for almost 6 per cent of global imports.

UPSTREAM SEGMENT: EXPLORATION AND DEVELOPMENT ACTIVITIES

During FY12, 1,631,000 metres of wells were explored and developed in India. During the same period, 756 wells were drilled in the country. State-owned oil companies undertake most of the upstream drilling and exploration work. ONGC, the leader in the upstream segment, accounts for 59 per cent of India’s total crude oil output.

ROAD AHEAD

Through 2015-16, India’s demand for gas is set to touch 124 MTPA against a domestic supply of 33 MTPA and higher imports of 47.2 MTPA, leaving a shortage of 44 MTPA, as per projections by the Petroleum and Natural Gas Ministry of India. Moreover, Business Monitor International (BMI) predicts that India will account for 12.4 per cent of Asia-Pacific regional oil demand by late 2015.

- In recent years, major discoveries in the Barmer basin in Rajasthan and the offshore Krishna-Godavari basin by smaller companies such as the Gujarat State Petroleum Corporation and Andhra Pradesh Gas Infrastructure Corporation hold some potential to diversify the country's production.
- Oil companies are focusing on vertical integration for next stage of growth. For instance, oil producer Oil India Ltd is planning to build and operate refineries, while Indian Oil is planning to enter oil & gas exploration.
- Most Indian companies are now targeting shale gas reserves as a source of energy in future, however, the recent downturn in oil prices has seen some activity reduce in this sector.
- Companies are looking forward to developing JVs and technical partnerships with experienced foreign companies to improve domestic capabilities to develop shale reserves.
- Indian companies are enhancing production through redevelopment plans to increase recovery rates of hydrocarbon from oil wells; ONGC in Mumbai High has achieved great success in implementing this.
- With exploration increasing not only in the country, but also in outside geographies, companies are pumping up R&D to focus on gasification technology and bio energy.
- 24 x 7 LPG service via web launched to provide LPG consumers an integrated solution to carry out all services at one place, through MyLPG.in, from the comfort of their home.
- Special dispensation for North East Region: For incentivising exploration and production in North East Region, 40 per cent subsidy on gas price has been extended to private companies operating in the region, along with ONGC and OIL.

GOVERNMENT INITIATIVES

Some of the major initiatives taken by the Government of India to promote the oil and gas sector are:

- India and Norway have discussed a bilateral relationship between the two countries in the field of oil and natural gas and decided to extend cooperation in hydrocarbon exploration.
- To strengthen the country's energy security, oil diplomacy initiatives have been intensified through meaningful engagements with hydrocarbon rich countries.
- PAHAL - Direct Benefit Transfer for LPG consumer (DBTL) scheme launched in 54 districts on November 11, 2014 and expanded to rest of the country on January 1, 2015 will cover 15.3 crore active LPG consumers of the country.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

INDEPENDENT AUDITORS' REPORT

To the Members of Global Vectra Helicorp Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Global Vectra Helicorp Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate

in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2015 and its profit and its cash flows for the year ended on that date.

Emphasis of Matters

We draw attention to the following matters in the Notes to the financial statements:

- Note no. 34 to the Company's financial statements which more fully explains that, the Company had received an order from the Office of the Commissioner of Customs (Preventive) confirming the demand for differential duty of customs along with penalty aggregating Rs 262,195,030. No provision has been made by the Company for the same nor the interest due thereon as at 31 March 2015, as the management believes, based on a recent decision from Customs Excise and Service Tax Appellate Tribunal (CESTAT) West Zonal Bench in favour of the Company on a similar matter and an opinion from an external legal expert, that the demand will be set aside by a higher appellate authority.
- Note no. 36 to the Company's financial statements which mentions that in the past, the Company's operations were disrupted due to an order dated 7 May 2012 received from The Director General of Civil Aviation (DGCA). The Company received an ad interim relief from the single-judge bench of the Delhi High Court vide its judgment dated 11 June 2012 which stayed the operation of the above mentioned order. Accordingly, the Company resumed its operations of flying aircrafts. However, on 19 September 2012 the DGCA has filed an appeal which is pending before the divisional bench of the Delhi High Court seeking the interim order passed by the single-judge bench to be set aside. Pursuant to the said appeal, the Company's Air Operator Permit has been renewed and is subject to the outcome of the above court matter. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Our opinion is not qualified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. The matters described under the Emphasis of Matters paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

- f. On the basis of the written representations received from the directors as on 31 March 2015, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2015, from being appointed as a director in terms of section 164(2) of the Act.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 25(b), Note 34 and Note 36 to the financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH 2015

With reference to the Annexure referred to in our report of even date, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, the Company has physically verified certain fixed assets during the year and no material discrepancies were noticed on such verification.
- (ii) (a) The inventory of consumables, spares and stores, including stocks lying with third parties, have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable.
- (b) The procedures for the physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory. The discrepancies noticed on verification between the physical stocks and the book records were not material.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraphs 3(iii) (a) and (b) of the Order are not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, and having regard to the explanation that purchases of certain items of spares are for the Company's specialised requirements for which suitable alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of spares and fixed assets and with regard to the sale of services. The nature of operations of the Company does not involve sale of goods. We have not observed any major weakness in the internal control system during the course of the audit.
- (v) The Company has not accepted any deposits from the public.

(vi) The Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for any of the services rendered by the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues of Provident Fund, Employees' State Insurance, Sales Tax, Wealth Tax, Duty of Customs and any other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. Notes to Financial Statements for the year ended 31st March 2015

Background

Global Vectra Helicorp Limited ('the Company') was incorporated in 1998 as a private limited company and was subsequently listed on the stock exchange on 27 October 2006. The Company is listed on the Bombay Stock Exchange Limited and the National Stock Exchange Limited. The Company is mainly engaged in helicopter charter services for offshore transportation, servicing the oil and gas exploration and production sector in India. The Company is also engaged in helicopter charter services for onshore transportation.

1 Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

1.1 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis, except for certain fixed assets which were revalued (at fair value) during the year ended 31 March 2009. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in Indian rupees.

1.2 Use of estimates

The preparation of financial statements in conformity with the generally accepted accounting principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements.

Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis; any revision to accounting estimates is recognised prospectively in current and future periods.

1.3 Current non current classification

All assets and liabilities are classified into current and non current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non current financial assets.

All other assets are classified as non current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

1.4 Tangible Fixed assets

Fixed assets are stated at cost of acquisition, less accumulated depreciation/amortisation and impairment losses, if any. The cost of an item of tangible fixed asset comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.

During the year ended 31 March 2009, the Company revalued all its leased and owned helicopters to reflect the current reinstatement cost / market value of the same. These assets are carried at fair value less accumulated depreciation.

Expenditure incurred on acquisition / constructions of fixed assets which are not ready for their intended use at each balance sheet date are disclosed under capital work in progress.

Depreciation on tangible fixed assets (including assets acquired under finance leases) except leasehold improvements is provided on the straight-line method over the useful lives of assets as prescribed under Schedule II of the Act which in management's opinion reflects the estimated useful economic lives of fixed assets (refer note 10).

Leasehold improvements in the nature of hangar and administrative building are amortised over the primary lease period or the useful life of the assets, whichever is shorter.

Major component parts of a helicopter which require replacement at regular intervals are identified and depreciated separately over their respective estimated remaining useful life. Accordingly, rotor heads are segregated from the helicopters and are depreciated over 5,000 hours, being their estimated useful life.

Depreciation for the year is recognised in the statement of profit and loss; however, where depreciable assets are revalued, till 31 March 2014, the additional depreciation on the revalued amount was being transferred from the revaluation reserve to the statement of profit and loss; with effect from 1 April 2014, the amount corresponding to the additional depreciation on the revalued asset is being transferred from the revaluation reserve to the general reserve.

The useful life of assets are reviewed by the management at each financial year end and revised if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life.

1.5 Impairment of assets:

Where there is an indication of impairment of the Company's assets, the Company estimates the recoverable amount of the asset or a group of assets. The recoverable amount of the asset (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. In assessing value in use, the estimated future cash flows are discounted to the present values based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

1.6 Maintenance expenditure

Helicopter maintenance checks including overhaul and repairs and maintenance that are required to be performed at regular intervals as enforced by the Director General of Civil Aviation (DGCA) and in accordance with the maintenance programme laid down by the manufacturers are debited to the statement of profit and loss as and when incurred.

1.7 Inventories

Inventories comprising of consumables, spares and shop supplies, are valued at lower of cost and net realisable value. Cost is determined on the basis of weighted average method. Cost of inventory comprises of all cost of purchase and other incidental cost incurred in bringing the inventories to their present location and condition.

1.8 Revenue recognition

Service income and reimbursement of expenses is recognised as and when services are rendered in accordance with the terms of the specific contracts, net of all contractual deductions. Revenue is recognised net of all taxes and levies.

Interest income is recognised on time proportion basis.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short

term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

(b) Post employment benefits

Defined contribution plans:

The Company makes specified monthly contributions towards employee provident fund and employees' state insurance corporation ('ESIC'). The Company's contribution paid / payable under the scheme is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plan:

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation at the balance sheet date using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

Actuarial gains and losses are recognised immediately in the statement of profit and loss in accordance with Accounting Standard (AS) 15 'Employee Benefits'.

(c) Long term employment benefits:

The Company's net obligation in respect of long term employment benefits i.e. compensated absences is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated based on actuarial valuation at the balance sheet date using the projected unit credit method and is discounted to its present value. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

1.10 Foreign exchange transactions

Foreign exchange transactions are recorded at the spot rates on the date of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year, except for exchange fluctuations arising on settlement of long term foreign currency monetary assets or liabilities.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated into Indian Rupees at the closing exchange rates on that date. The resultant exchange differences are recognised in the statement of profit and loss; except that exchange differences pertaining to long term foreign currency monetary items that are related to acquisition of depreciable assets are adjusted in the carrying amount of the related fixed assets.

A foreign currency monetary item is classified as long term if it has original maturity of one year or more

1.11 Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are considered as part of cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

1.12 Taxation

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period).

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

1.13 Leases

Assets acquired under leases other than finance lease are classified as operating leases. Lease rentals (including scheduled rental increases) in respect of assets acquired under operating lease are charged off to the statement of profit and loss on a straight line basis with reference to the lease term and other contractual consideration as incurred. Initial direct cost incurred specifically for an operating lease are deferred and charged to the statement of profit and loss over the lease term.

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance lease. Such assets acquired on or after 1 April 2001 are capitalised at fair value of the assets or present value of the minimum lease payments at the inception of the lease, whichever is lower. A corresponding amount is recorded as a lease liability. The principal amount in the lease rentals paid is adjusted against the lease liability and the balance charged to the statement of profit and loss as finance cost.

1.14 Earnings per share ('EPS')

Basic EPS is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the year except where the result would be anti dilutive.

1.15 Provisions and contingencies

The Company creates a provision where there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A disclosure for a contingent liability is made when there is a possible or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provision in respect of loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

1.16 Derivatives

In compliance with the announcement dated 29th March, 2008 by ICAI regarding Accounting for Derivatives, the loss arising out of marking each class of derivative contracts to market price is recognised in the statement of profit and loss. Income, if any, arising out of marking each class of derivative contracts to market price is not recognised in the statement of profit and loss.

Note:

During the year ended 31 March 2009, the Company has, in order to reflect the current reinstatement cost/market value of its assets, revalued all of its leased helicopters and owned helicopters. The revaluation for the helicopters had been carried out by international helicopters/aircraft valuers considering the total time of air frame (TTAF) (Cumulative time in Service). Accordingly, the resultant accretion to the value of the helicopters aggregating Rs 924,551,109 had been adjusted (added) to the historical cost of the asset and a corresponding amount had been credited to revaluation reserve. Additional depreciation of the accretion to the historical cost of the asset on account of the revaluation aggregating Rs NIL (previous year: Rs 33,021,336) has been passed through the statement of profit and loss with an equivalent withdrawal from the revaluation reserve to the statement of profit and loss.

Notes:

- Amounts disclosed in brackets are comparatives as at 31 March 2014.
- As per paragraph 46A of AS 11, exchange loss on restatement of long term monetary liabilities at 31 March 2015 aggregating to Rs 51,893,029 (previous year: Rs 175,655,333 capitalised) (net of tax) has been capitalised by adjusting the historical cost of the specifically identifiable asset. The exchange fluctuation during the year is presumed to occur evenly throughout the reporting period.
- Depreciation charge has been disclosed as under:

	31 March 2015	31 March 2014
Depreciation charge for the year	258,420,631	325,381,940
Amount debited to the opening balance of general reserve (refer note 3)	1,223,840	-
Amount withdrawn from revaluation reserve (refer note 3)	-	33,021,336
As per the statement of profit and loss	257,196,791	292,360,604

The Company has adopted the useful lives of various fixed assets as specified in Schedule II to the Companies Act, 2013, with effect from 1 April 2014, as against the useful lives adopted earlier as specified in Schedule XIV to the Companies Act, 1956. Accordingly,

- the depreciation charge for the current year is lower by Rs 68,792,476.

- in respect of assets where the remaining useful life as per Schedule II is Nil as on 1 April 2014, an amount of Rs 1,223,840 is recognised in the opening balance of general reserves. - the Company has charged the additional depreciation on upward revaluation of fixed assets to the statement of profit and loss with effect from 1 April 2014 as a result of which, the depreciation for the year ended 31 March 2015 is higher by Rs 26,849,721. This amount has accordingly been transferred to the general reserve from the revaluation reserve.

34 Demand notice issued by the Customs authorities

During the year ended 31 March 2009, the Office of the Commissioner of Customs (Preventive) has seized three helicopters for alleged non-compliance of the duty waivers given to non-scheduled operators (passenger). The Company has received a Show Cause Cum Demand Notice (SCN) citing an amount of Rs 237,924,458 (previous year: Rs 237,924,458) towards custom duty under Section 28 of the Customs Act, 1962 and applicable interest and penalty thereon. Pursuant to the receipt of the said SCN, the Commissioner of Customs (Preventive) has confirmed a demand of Rs 262,195,030 (previous year: Rs 262,195,030) towards differential duty of customs and penalty thereon for two helicopters. The management believes that the Company is in compliance with the relevant customs and other regulatory guidelines in this respect, based on recent decision from Custom Excise and Service Tax Appellate Tribunal (CESTAT) West Zonal Bench, in favour of the Company on a similar matter and on an opinion from an external legal expert and the demand being contested by the Company will be set aside by a higher appellate tribunal. An amount aggregating Rs 53,826,044 (previous year: Rs 53,826,044) has been paid as duty under protest during the year ended 31 March 2010.

35 Transfer Pricing

The Company's international transactions with related parties are at arms length as per the independent accountants report for the year ended 31 March 2014. Management believes that the Company's international transactions with related parties post 31 March 2014 continue to be at arm's length and that the transfer pricing legislation will not have any impact on these financial statements, particularly on amount of tax expenses and that of provision of taxation. Management is in the process of obtaining the transfer pricing study / report for the year ended 31 March 2015.

36 Suspension of Non-Scheduled Operator's Permit

The Director General of Civil Aviation (DGCA) vide its order dated 7 May 2012 suspended the Company's Air Operator's Permit (AOP). Consequently, the operations of the Company were suspended. The Company filed a Writ Petition with the single-judge bench of the Delhi High Court against the order of DGCA. Delhi High Court vide its judgment dated 11 June 2012 granted an interim relief to the Company and stayed the operation of the above mentioned order. Consequently, DGCA vide its order dated 20 June 2012 stayed its order of 7 May 2012, accordingly, the Company resumed its operations of flying aircrafts.

On 19 September 2012 the DGCA has filed an appeal which is pending before the divisional bench of the Delhi High Court seeking the interim order passed by the single-judge bench to be set aside. Pursuant to the said appeal, the Company's AOP has been renewed and is subject to the outcome of the above court matters.

Management believes that the Company is in compliance with relevant DGCA and other applicable regulations and continues as a going concern.

37 Exceptional items

During the year ended 31 March 2015, pursuant to the approval of the Board, the Company has sold one helicopter. This sale has resulted into a profit of Rs 49,976,012 which has been recorded as an exceptional item for the year ended 31 March 2015.

38 Prior period items

In past period certain customers of the Company have retained an amount aggregating Rs 90,264,239 (31 March 2014: Rs 90,264,239) in respect of taxes levied by the Company. The Company is currently in discussion with these customers for recovering the retained amount and the Company believes that it has a strong case to collect the outstanding amounts. However, the Company pursuant to advice received from Securities and Exchange Board of India (SEBI) in the letter dated 27 April 2015, has recorded a provision aggregating Rs 90,264,239 as at 31 March 2015 against these outstandings.
