In H1 2016, our SMS was enhanced and the latest version of PRISM (Proactive Reactive Integrated Safety Management) software was rolled out. In addition, all senior executives and senior managers underwent formal ICAO SMS training.

As part of our continuing effort to further enhance our management systems, we utilise an ERP (Enterprise Resource

Planning) System from IFS AB, a Swedish company and one of the world's leading providers of business software. Through this system we have integrated the management data of Flight Operations, Maintenance Repair and Overhaul (MRO) processes, Quality Control, Logistics, Inventory Management, Human Resources/Payroll and Finance.

INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company has aligned its current systems of internal financial control with the requirement of Companies Act 2013, on lines of globally accepted risk based framework as issued by the committee of sponsoring organisations (COSO) of the treadway commission. The Internal Control – Integrated Framework (the 2013 framework) is intended to increase transparency and accountability in an organisation's process of designing and implementing a system of internal control. The framework requires a company to identify and analyse risks and manage appropriate responses. The Company has successfully laid down the framework and ensured its effectiveness.

Your Company's internal controls are commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation and ensuring compliance of corporate policies. Your Company has a well-defined delegation of power with authority limits for approving revenue as well as expenditure. Processes for formulating and reviewing annual and long term business plans have been laid down. Your Company uses an enterprise resource planning (ERP) system to record data for accounting, consolidation and management information purposes and connects to different locations for efficient exchange of information. It has continued its efforts to align all its processes and controls with global best practices.

Our management assessed the effectiveness of the Company's internal control over financial reporting (as defined in Clause 17 of SEBI Regulations 2015) as of March 31, 2016. The assessment involved self review, peer review and external audit.

BSR & Co. LLP, the statutory auditors of the Company has audited the financial statements included in this annual report and has issued an attestation report on our internal control over financial reporting (as defined in section 143 of Companies Act 2013).

Your Company has appointed an external consultancy firm to oversee and carry out internal audit of its activities. The audit is based on an internal audit plan, which is reviewed each year in consultation with the audit committee. In line with international practice, the conduct of internal audit is oriented towards the review of internal controls and risks in its operations such as software delivery, accounting and finance, procurement, employee engagement, travel, insurance, IT processes.

Your Company also undergoes periodic audit by specialised third party consultants and professional for business specific compliances such as quality management, service management, information security, etc.

The audit committee reviews reports submitted by the management and audit reports submitted by internal auditors

and statutory auditors. Suggestions for improvement are considered and the audit committee follows up on corrective action. The audit committee also meets the Company's statutory auditors to ascertain, inter alia, their views on the adequacy of internal control systems and keep the board of directors informed of its major observations periodically.

Based on its evaluation (as defined in section 177 of Companies Act 2013 and Clause 18 of SEBI Regulations 2015), our audit committee has concluded that, as of March 31, 2016, our internal financial controls were adequate and operating effectively.

OUR MISSION STATEMENT

Global Vectra Helicorp Limited shall provide safe, efficient and reliable helicopter services and we shall remain recognised as the operator of choice in our region. We shall also grow our brand internationally, by further enhancing our safety, quality and compliance functions, in line with internationally recognised standards and best practice principles for our industry.

- We are the first choice for helicopter services in India
- Our commitment to maintaining our safety focus underpins all that we do
- We deliver safe operations
- We are cost effective and reliable, commensurate with high quality of service provided
- We shall exceed our customer expectations
- We shall achieve our objectives – because we know where we are today and where we are going tomorrow.

Our Mission is driven by our Management Team – but delivery comes from every member of our Company

Oil and Gas Industry in India –

INTRODUCTION

The oil and gas sector is among the six core industries in India and plays a major role in influencing decision making for all the other important sections of the economy.

In 1997–98, the New Exploration Licensing Policy (NELP) was envisaged to fill the ever-increasing gap between India's gas demand and supply. A recent report points out that the Indian oil and gas industry is anticipated to be worth US\$ 139.8 billion by 2015. India's economic growth is closely related to energy demand; therefore the need for oil and gas is projected to grow more, thereby making the sector quite conducive for investment.

To cater to the increasing demand, the Government of India has adopted several policies to fulfil the increasing demand. The government has allowed 100 per cent Foreign Direct Investment (FDI) in many segments of the sector, including natural gas, petroleum products, and refineries, among others. Today, it attracts both domestic and foreign investment, as attested by the presence of Reliance Industries Ltd (RIL) and Cairn India.

MARKET SIZE

Backed by new oil fields, domestic oil output is anticipated to grow to 1 MBPD by FY16. With India developing gas-fired power stations, consumption is up more than 160 per cent since 1995. Gas consumption is likely to expand at a Compound Annual Growth Rate (CAGR) of 21 per cent during FY08–17.

Presently, domestic production accounts for more than three-quarters of the country's total gas consumption.

India increasingly relies on imported LNG; the country was the fifth-largest LNG importer and accounts for 5.5 percent of the total global trade. India's LNG imports had increased by 24 per cent year-on-year in January 2016 to 1.98 Billion Cubic Metres (BCM).

Domestic LNG demand is expected to grow at a CAGR of 16.89 per cent to 306.54 Million Metric Standard Cubic Meter per Day (MMSCMD) by 2021 from 64 MMSCMD in 2015.

The country's gas production is expected to touch 90 Billion Cubic Metres (BCM) in 2040 from 35 BCM in 2013. Gas pipeline infrastructure in the country stood at 15,808 km in December 2015.

State-owned Oil and Natural Gas Corporation (ONGC) dominates the upstream segment (exploration and production), accounting for approximately 68 per cent of the country's total oil output (FY14).

Indian Oil Corporation Limited (IOCL) operates 11,214 km network of crude, gas and product pipelines, with a capacity of 1.6 MBPD of oil and 10 MMSCMD of gas. This is around 30 per cent of the nation's total pipeline network. IOCL is the largest company, operating 10 out of 22 Indian refineries, with a combined capacity of 1.3 MBPD

INVESTMENT

According to data released by the Department of Industrial Policy and Promotion (DIPP), the petroleum and natural gas sector attracted FDI worth US\$ 6.64 billion between April 2000 and December 2015.

ADVANTAGES TO INDIA

GROWING DEMAND

India is the world's fourth-largest energy consumer (2014); oil and gas account for 37 per cent of total energy consumption.

Demand for primary energy in India is to increase threefold by 2035 to 1,516 million Tonnes of Oil Equivalent from 637 million Tonnes of Oil Equivalent in 2014.

SUPPORTIVE FDI GUIDELINES

The government allows 100 per cent Foreign Direct Investment (FDI) in upstream and private sector refining projects.

The FDI limit for public sector refining projects has been raised to 49 per cent without any disinvestment or dilution of domestic equity in the existing PSUs.

POLICY SUPPORT

Government has enacted various policies such as the New Exploration Licensing Policy (NELP) and Coal Bed Methane (CBM) policy to encourage investments.

In a new policy in 2013 companies that have existing petroleum and mining licenses are allowed to apply for shale oil & gas licences.

New Domestic natural gas pricing guidelines has been enforced on 10th January 2014.

WORLD'S FOURTH-LARGEST ENERGY CONSUMER

India's energy demand is expected to double to 1,516 Mtoe by 2035 from 637 Mtoe in 2014. Moreover, the country's share in

global primary energy consumption is projected to increase two fold by 2035.

FOURTH-LARGEST CONSUMER OF OIL AND PETROLEUM PRODUCTS

Oil consumption is estimated to reach 4.0 mbpd by FY16, expanding at a CAGR of 3.2 per cent during FY08–FY16F. By 2025, India is expected to overtake Japan to become the third-largest consumer of oil.

FOURTH-LARGEST LNG IMPORTER IN 2015

LNG imports accounted for about one-fourth of total gas demand. India's gas demand is estimated to more than double over the next five years.

OIL SUPPLY AND DEMAND IN INDIA

DEMAND

- Oil consumption is estimated to expand at a CAGR of 3.3 per cent during FY2008–16F to reach 4.0 mbpd by 2016.
- Due to the expected strong growth in demand, India's dependency on oil imports is likely to increase further.
- Rapid economic growth is leading to greater outputs, which in turn is increasing the demand of oil for production and transportation.
- With rising income levels, demand for automobile is estimated to increase.

SUPPLY

- In June 2015, total crude oil imports were valued at USD 8.7 billion.
- In FY14, imports accounted for approximately 80 per cent of the country's total oil demand.
- Despite being a net importer of crude oil, India has become a net exporter of petroleum products by investing in refineries designed for export, particularly in Gujarat.
- Backed by new oil fields, domestic oil output is anticipated to grow to 1.0 mbpd by FY16.

GAS SUPPLY AND DEMAND IN INDIA

DEMAND

Proven reserves and total gas consumption in the country (bcm)

Source: PPAC, BP Statistical Review 2014, Ministry of Oil & Natural Gas 2014, Aranca Research
Notes: F – Forecast, bcm – Billion Cubic Metres, CAGR – Compound Annual Growth Rate, * - Up until March 2017

Demand is expected to increase due to higher economic growth, ensure less dependency on imported crude and a desire to use cleaner fuel.

- During 2013-14, 32.56 percent of the natural gas consumed in the country was used by the fertilizer industry, and 31.02 by the power generation sector.
- With India developing gas-fired power stations, consumption is up more than 160 per cent since 1995.
- Demand is not likely to simmer down any time soon, given strong economic growth and rising urbanisation.
- Gas consumption is likely to expand at a CAGR of 3.53 per cent during 2007-2014.

SUPPLY

India's LNG imports are forecast to increase at a CAGR of 18.67 per cent during 2008 - 17.

- India had 1.4 trillion cubic meters of proven natural gas reserves at the beginning of 2014. Approximately 34 per cent of total reserves are located onshore, while 66 per cent are offshore.
- Domestic production accounts for more than three-quarter of the country's total gas consumption.
- Imports constitute the rest; in 2015, imports of LNG stood at 21.66 bcm.
- India increasingly relies on imported LNG; the country was the fourth-largest LNG importer in 2014, accounting for 5.68 per cent of global imports.

UPSTREAM SEGMENT: EXPLORATION AND DEVELOPMENT ACTIVITIES

- During FY15, 1,352,000 metres of wells were explored and developed in India.
- During the same period, 637 wells were drilled in the country.
- State-owned oil companies undertake most of the upstream drilling and exploration work.
- ONGC, the leader in the upstream segment, accounts for 60 per cent of India's total crude oil output.

ROAD AHEAD

By 2015-16, India's demand for gas may touch 124 MTPA against a domestic supply of 33 MTPA and higher imports of 47.2 MTPA, leaving a shortage of 44 MTPA, as per projections by the Petroleum and Natural Gas Ministry of India. Business Monitor International (BMI) predicts that India would account for 12.4 per cent of Asia-Pacific regional oil demand by 2015.

- In recent years, major discoveries in the Barmer basin in Rajasthan and the offshore Krishna-Godavari basin by smaller companies such as the Gujarat State Petroleum Corporation and Andhra Pradesh Gas Infrastructure Corporation hold some potential to diversify the country's production.
- Oil companies are focusing on vertical integration for next stage of growth. For instance, oil producer Oil India Ltd is planning to build and operate refineries, while Indian Oil is planning to enter oil & gas exploration.
- Most Indian companies are now targeting shale gas reserves as a source of energy in future.
- Companies are looking forward to developing JVs and technical partnership with foreign companies to improve capabilities to develop shale reserves.
- Indian companies are enhancing production through redevelopment plans to increase recovery rates of hydrocarbon from oil wells; ONGC in Mumbai High achieved success in implementing this.
- With exploration increasing not only in the country but also in outside geographies, companies are pumping up R&D to focus on gasification technology and bio energy.

GOVERNMENT INITIATIVES

Some of the major initiatives taken by the Government of India to promote oil and gas sector are:

- The Ministry of Petroleum and Natural Gas has announced a new 'Marginal Fields Policy', which aims to bring into production 69 marginal oil and gas fields with 89 million tonnes or ₹ 75,000 crore (US\$ 11 billion) worth of reserves, by offering various incentives to oil and gas explorers such as exemption from payment of oil cess and customs duty on machinery and equipment.
- To strengthen the country's energy security, oil diplomacy initiatives have been intensified through meaningful engagements with hydrocarbon rich countries.
- PAHAL - Direct Benefit Transfer for LPG consumer (DBTL) scheme launched in 54 districts on November 11, 2014 and expanded to rest of the country on January 1, 2015 will cover 15.3 crore active LPG consumers of the country.
- 24 x 7 LPG service via web launched to provide LPG consumers an integrated solution to carry out all services at one place, through MyLPG.in, from the comfort of their home.
- The Government of India launched the 'Give It Up' campaign on LPG subsidy that helped it save ₹ 140 crore (US\$ 20.54 million) as on July 22, 2015 with nearly 1.26

million Indians registering for the cause. As per recent statistics from oil ministry, as many as 30,000 to 40,000 households are giving up LPG subsidy each day.

- Special dispensation for North East Region, for incentivising exploration and production in North East Region, 40 per cent subsidy on gas price has been extended to private companies operating in the region, along with ONGC and OIL.

INDEPENDENT AUDITORS' REPORT

To the Members of Global Vectra Helicorp Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Global Vectra Helicorp Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit

procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2016 and its profit and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to note 34 to the Company's financial statements which more fully explains that, the Company had received an order from the Office of the Commissioner of Customs (Preventive) confirming the demand for differential duty of customs along with penalty aggregating ₹ 262,195,030 (2015: ₹ 262,195,030). No provision has been made by the Company for the same nor the interest due thereon as at 31 March 2016, as the management believes, based on a recent decision from Customs Excise and Service Tax Appellate Tribunal (CESTAT) West Zonal Bench in favour of the Company on a similar matter and an opinion from an external legal expert, that the demand will be set aside by a higher appellate authority. Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;

- e. The matter described under the Emphasis of Matter paragraph above, in our opinion, may have an adverse effect on the functioning of the Company;
- f. On the basis of the written representations received from the directors as on 31 March 2016, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2016, from being appointed as a director in terms of Section 164(2) of the Act;
- g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”; and
- h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 26(b) and Note 34 to the financial statements;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF THE COMPANY – 31 MARCH 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Global Vectra Helicorp Limited ("the Company") as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Financial Statements for the year ended 31st March 2016

(Currency Indian Rupees)

Background

Global Vectra Helicorp Limited ('the Company') was incorporated in 1998 as a private limited company and was subsequently listed on 27 October 2006 the Bombay Stock Exchange Limited and the National Stock Exchange Limited. The Company is mainly engaged in helicopter charter services for offshore transportation, servicing the oil and gas exploration and production sector in India. The Company is also engaged in helicopter charter services for onshore transportation.

1 Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

1.1 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis, except for certain fixed assets which were revalued (at fair value) during the year ended 31 March 2009. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in Indian rupees.

1.2 Use of estimates

The preparation of financial statements in conformity with the generally accepted accounting principles (GAAP) in India requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements.

Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis; any revision to accounting estimates is recognised prospectively in current and future periods.

1.3 Current non current classification

All assets and liabilities are classified into current and non current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;

- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realised within 12 months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non current financial assets.

All other assets are classified as non current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within 12 months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counter party, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non current financial liabilities.

All other liabilities are classified as non current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

1.4 Tangible Fixed assets

Fixed assets are stated at cost of acquisition, less accumulated depreciation/amortisation and impairment losses, if any. The cost of an item of tangible fixed asset comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.

During the year ended 31 March 2009, the Company revalued all its leased and owned helicopters to reflect the current reinstatement cost / market value of the same. These assets are carried at fair value less accumulated depreciation.

Expenditure incurred on acquisition / constructions of fixed assets which are not ready for their intended use at each balance sheet date are disclosed under capital work in progress.

Depreciation on tangible fixed assets (including assets acquired under finance leases) except leasehold improvements is provided on the straight-line method over the useful lives of assets as prescribed under Schedule II of the Act which in management's opinion reflects the estimated useful economic lives of fixed assets (refer note 10).

Leasehold improvements in the nature of hangar and administrative building are amortised over the primary lease period or the useful life of the assets, whichever is shorter.

Major components of helicopters which require replacement at regular intervals are identified and depreciated separately over their respective estimated remaining useful life. Accordingly, overhaul costs of engines are depreciated over 5,000 hours, being their estimated useful life.

Depreciation for the year is recognised in the statement of profit and loss; the amount corresponding to the additional depreciation on the revalued asset is being transferred from the revaluation reserve to the general reserve.

Losses arising from retirement or gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss. In case of disposal of a revalued asset, the difference between net disposal proceeds and the net book value is charged or credited to the Statement of Profit and Loss except that to the extent that such a loss is related to an existing surplus on that asset recognised in revaluation reserve, it is charged directly to that reserve.

The useful life of assets are reviewed by the management at each financial year end and revised if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life.

1.5 Impairment of assets:

Where there is an indication of impairment of the Company's assets, the Company estimates the recoverable amount of the asset or a group of assets. The recoverable amount of the asset (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. In assessing value in use, the estimated future cash flows are discounted to the present values based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

1.6 Maintenance expenditure

Helicopter maintenance expenses including repairs and maintenance that are required to be performed at regular intervals as enforced by the Director General of Civil Aviation (DGCA) and in accordance with the maintenance programme laid down by the manufacturers are debited to the statement of profit and loss as and when incurred.

1.7 Inventories

Inventories comprising of consumables and spares supplies, are valued at lower of cost and net realisable value. Cost is determined on the basis of weighted average method. Cost of inventory comprises of all cost of purchase and other incidental cost incurred in bringing the inventories to their present location and condition.

1.8 Revenue recognition

Service income and reimbursement of expenses is recognised as and when services are rendered in accordance with the terms of the specific contracts, net of

all contractual deductions. Revenue is recognised net of all taxes and levies.

'Unbilled revenue' included in 'Other current assets' represents services rendered for which billing is pending at the end of the reporting period.

Interest income is recognised on time proportion basis.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

(b) Post employment benefits

Defined contribution plans:

The Company makes specified monthly contributions towards employee provident fund and employees' state insurance corporation ('ESIC'). The Company's contribution paid / payable to the government administered fund / scheme is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plan:

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation at the balance sheet date using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

Actuarial gains and losses are recognised immediately in the statement of profit and loss in accordance with Accounting Standard (AS) 15 'Employee Benefits'.

(c) Long term employment benefits:

The Company's net obligation in respect of long term employment benefits i.e. compensated absences is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated based on actuarial valuation at the balance sheet date using the projected unit credit method and is discounted to its present value. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the balance sheet date.

1.10 Foreign exchange transactions

Foreign exchange transactions are recorded at the spot rates on the date of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year, except for exchange differences arising on settlement of long term foreign currency monetary assets or liabilities as described below.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated into Indian Rupees at the closing exchange rates on that date. The resultant exchange differences are recognised in the statement of profit and loss; except that exchange differences pertaining to long term foreign currency monetary items that are related to acquisition of depreciable assets are adjusted in the carrying amount of the related fixed assets.

A foreign currency monetary item is classified as long term if the asset or liability is expressed in a foreign currency and it has an original maturity of one year or more

1.11 Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are considered as part of cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

1.12 Taxation

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period).

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the

Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

1.13 Leases

Assets acquired under leases other than finance lease are classified as operating leases. Lease rentals (including scheduled rental increases) in respect of assets acquired under operating lease are charged off to the statement of profit and loss on a straight line basis with reference to the lease term and other contractual consideration as incurred. Initial direct cost incurred specifically for an operating lease are deferred and charged to the statement of profit and loss over the lease term.

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance lease. Such assets acquired on or after 1 April 2001 are capitalised at fair value of the assets or present value of the minimum lease payments at the inception of the lease, whichever is lower. A corresponding amount is recorded as a lease liability. The principal amount in the lease rentals paid is adjusted against the lease liability and the balance charged to the statement of profit and loss as finance cost.

1.14 Earnings per share ('EPS')

Basic EPS is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the year except where the result would be anti dilutive.

1.15 Provisions and contingencies

The Company creates a provision where there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A disclosure for a contingent liability is made when there is a possible or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provision in respect of loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

28 Segment reporting

The Company is engaged in providing helicopter services in India, which is considered as one business segment. The secondary segment reporting based on geographical risk factor which may be present in different countries is also not applicable, as the Company's revenue attributable from overseas business is less than 10% of the total business. Hence, there are no separate reportable segments, as required by the Accounting Standard 17 on "Segment Reporting" as notified under section 133 of the Act.

34 Demand notice issued by the Customs authorities

During the year ended 31 March 2009, the Office of the Commissioner of Customs (Preventive) had seized three helicopters for alleged non-compliance of the duty waivers given to non-scheduled operators (passenger). The Company had received a Show Cause Cum Demand Notice (SCN) citing an amount of ₹ 237,924,458 (previous year: ₹ 237,924,458) towards custom duty under Section 28 of the Customs Act, 1962 and applicable interest and penalty thereon. Pursuant to the receipt of the said SCN, the Commissioner of Customs (Preventive) had confirmed a demand of ₹ 262,195,030 (previous year: ₹ 262,195,030) towards differential duty of customs and penalty thereon for two helicopters. The management believes that the Company is in compliance with the relevant customs and other regulatory guidelines in this respect, based on recent decision from Custom Excise and Service Tax Appellate Tribunal (CESTAT) West Zonal Bench, in favour of the Company on a similar matter and on an opinion from an external legal expert and the demand being contested by the Company will be set aside by the higher appellate tribunal. An amount aggregating ₹ 53,826,044 (previous year: ₹ 53,826,044) has been paid as duty under protest during the year ended 31 March 2010.

35 Transfer Pricing

The Company's international transactions with related parties are at arms length as per the independent accountants report for the year ended 31 March 2015. Management believes that the Company's international transactions with related parties post 31 March 2015 continue to be at arm's length and that the transfer pricing legislation will not have any impact on these financial statements, particularly on amount of tax expenses and that of provision of taxation. Management is in the process of obtaining the transfer pricing study / report for the year ended 31 March 2016.

36 Exceptional items

During the year ended 31 March 2016, pursuant to the approval of the Board, the Company terminated the lease of one of its helicopters, which resulted in a loss (net of revaluation reserve of ₹ 26,925,834 and lease outstanding) of ₹ 133,807,010 and has been recorded as an exceptional item. During the previous year, pursuant to the approval of the Board, the Company sold one helicopter. This sale resulted in a profit of ₹ 49,976,012 which was recorded as an exceptional item for the year ended 31 March 2015.

37 The Company has constituted a Corporate Social Responsibility (CSR) Committee as per Section 135 and Schedule VII of the Act read with the Companies (Corporate Social Responsibility Policy) Rules 2014.

The CSR activities of the Company will be undertaken either through a Registered Trust or in collaboration with other Group Companies.

The Company is in the process of identifying the Projects for CSR spending. The efforts are being undertaken to implement the same in financial year 2016-17

Particulars	Amount
A. Gross amount required to be spent by the Company during the year 2015-16	3,499,202
