- We shall achieve our objectives – because we know where we are today and where we are going tomorrow.

Our Mission is driven by our Management Team – but delivery comes from every member of our Company.

**Oil and Gas Industry in India**

**Introduction**

The oil and gas sector is among the six core industries in India and plays a major role in influencing decision making for all the other important sections of the economy.

India's energy demand is expected to double to 1,516 Mtoe by 2035 from 723.9 Mtoe in 2016. Moreover, the country's share in global primary energy consumption is projected to increase by 2-folds by 2035. As of May 1, 2018, the oil refining capacity of India stood at 247.6 million tonnes, making it the second largest refiner in Asia. Private companies own about 35.62 per cent of the total refining capacity.

India's consumption of petroleum products grew 5.31 per cent to 204.992 MMT in 2017-18 from 194.597 MMT in FY17.

India was the 3<sup>rd</sup> largest consumer of crude oil and petroleum products in the world in 2016. India increasingly relies on imported LNG; the country is the fourth largest LNG importer and accounted for 5.68 per cent of global imports. India imported 18.63 MMT of LNG during 2016-17, in comparison to 16.14 MMT in 2015-16. LNG imports during 2017-18, reached 18.05 MMT.

**Growing Demand:** India is the world's 3<sup>rd</sup> largest energy consumer; oil and gas account for 35.61 per cent of total energy consumption in India. Demand for primary energy in India is to increase 2 -fold by 2035 to 1,516 million tonnes of oil.

**Supportive FDI Guidelines:** The government now allows 100 percent Foreign Direct Investment (FDI) in upstream and private sector refining projects. The FDI limit for public sector refining projects has been raised to 49 per cent without any disinvestment or dilution of domestic equity in the existing PSUs.

**Policy Support:** In 2017, the government launched National Data Repository (NDR) to make E&P data available for commercial exploitation and R&D. Government has enacted various policies such as the Open Acreage Licensing Policy (OALP) and Coal Bed Methane (CBM) policy to encourage investments.

**Market Size**

India is expected to be one of the largest contributors to non-OECD petroleum consumption growth globally. Oil imports rose sharply year-on-year by 27.89 per cent to US\$ 9.29 billion in October 2017. India's oil consumption grew 8.3 per cent year-on-year to 212.7 million tonnes in 2016, as against the global growth of 1.5 per cent, thereby making it the third-largest oil consuming nation in the world.

India is the fourth-largest Liquefied Natural Gas (LNG) importer after Japan, South Korea and China, and accounts for 5.8 per cent of the total global trade. Domestic LNG demand is expected to grow at a CAGR of 16.89 per cent to 306.54 MMSCMD by 2021 from 64 MMSCMD in 2015.

The country's gas production is expected to touch 90 Billion Cubic Metres (BCM) in 2040 from 21.3 BCM in 2017-2018 (Apr-Nov). Gas pipeline infrastructure in the country stood at 16,470 km in September 2017.

**Investment**

According to data released by the Department of Industrial Policy and Promotion (DIPP), the petroleum and natural gas sector attracted FDI worth US\$ 6.86 billion between April 2000 and September 2017.

Following are some of the major investments and developments in the oil and gas sector:

World's largest oil exporter Saudi Aramco is planning to invest in refineries and petrochemicals in India as it looks to enter into a strategic partnership with the country.

Foreign investors will have opportunities to invest in projects worth US\$ 300 billion in India, as the country looks to cut reliance on oil imports by 10 per cent by 2022, according to Mr Dharmendra Pradhan, Minister of Petroleum and Natural Gas, Government of India.

During the bilateral meeting held in Tokyo between Mr Dharmendra Pradhan, Minister of Petroleum and Natural Gas, Government of India and Mr Hiroshige Seko, Minister of Economy, Trade, and Industry of Japan, signed a memorandum of cooperation on establishing a liquid, flexible and global liquefied natural gas (LNG) market by exploring joint cooperation in the areas of sourcing, swapping and optimisation of LNG sources.

State-owned Oil and Natural Gas Corporation (ONGC) has come up with the new blueprint to increase the crude oil production by 4 million tonnes and to double its natural gas production by 2020 to curb the country's import dependency by 10 percent. The company will raise its crude oil production from 22.6 million tonnes in 2017-2018 to 26.42 million tonnes in 2021- 2022.

**Government Initiatives**

The Government has been seriously infusing natural gas to complement the existing fuel mix and spread natural gas network across the country. It is working on priority to increase gas accessibility in the eastern states. Government sets target to reach 10 million households and additional thousands of industrial and commercial customers across the country by 2018-2019 is going to be the defining year for natural gas in India.

In 2017, the Government implemented many transformative initiatives to improve availability, accessibility, and affordability of clean fuel. During April-November, 2017, 46.2 lakh double bottle connections and 206.9 lakh new connections were released out of which 115.8 lakh were released under PMUY. By 2019, the Government intends to achieve close to 100% penetration of clean cooking fuel in India.

Some of the major initiatives taken by the Government of India to promote oil and gas sector are:

State-run oil firms are planning investments worth Rs 723 crore (US\$ 111.30 million) in Uttar Pradesh to improve the liquefied petroleum gas (LPG) infrastructure in a bid to promote clean energy and generate employment, according to Mr Dharmendra Pradhan, Minister of Petroleum and Natural Gas, Government of India.

A gas exchange is planned in order to bring market-driven pricing in the energy market of India and the proposal for the same is ready to be taken to the Union Cabinet, according to the Ministry of Petroleum and Natural Gas, Government of India.

The Oil Ministry plans to set up bio-CNG (compressed natural gas) plants and allied infrastructure at a cost of Rs 7,000 crore (US\$ 1.10 billion) to promote the use of clean fuel.

**Road Ahead**

India’s consumption of oil products will accelerate in 2018 after unusually slow growth in 2017; according to a new report by ESAI Energy. The report explains that, due to a faltering economy, demand growth slowed for almost every fuel in 2017, with kerosene, naphtha, and fuel oil use all declining. Petroleum coke demand was stagnant this year after booming in 2016. Consumption of all petroleum products, except kerosene, will return to faster growth in 2018.

After total oil demand growth slowed to just 60,000 b/d in 2017; consumption should accelerate to 200,000 b/d in 2018 as the economy recovers from multiple disruptions this year. After growing by 140,000 b/d in 2016, petcoke consumption stayed flat this year due to higher prices and a sharp decline in cement manufacturing. Next year, petcoke demand should return to growth of 40,000 b/d.

India’s oil demand is expected to grow at a CAGR of 3.6 per cent to 458 Million Tonnes of Oil Equivalent (MTOE) by 2040, while demand for energy will more than double by 2040 as economy will grow to more than five times its current size, as stated by Mr Dharmendra Pradhan, Minister of State for Petroleum and Natural Gas.

Gas production will likely touch 90 Billion Cubic Metres (BCM) by 2040, subject to adjustment to the current formula that determines the price paid to domestic producers, while demand for natural gas will grow at a CAGR of 4.6 per cent to touch 149 MTOE.

After the completion of certain projects which are undertaken by various refineries, the Refining Capacity of India is expected to reach 256.55 MTPA by 2019-20.

The demand for petroleum products is estimated to reach 244,960 MT by 2021-22, up from 186,209 MT in 2016, and the demand for natural gas is expected to reach 606 MMSCMD by 2021-22 as against a demand of 473 MMSCMD in 2016-17.

Exchange Rate Used: INR 1 = US\$ 0.015 as on January 4, 2018.

**ADVANTAGE INDIA**

**Growing demand**

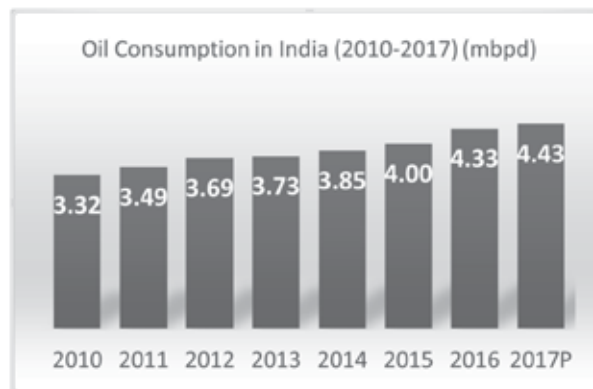

- India is one of the world’s top three largest energy consumers with oil & gas accounting for more than 35 per cent of total energy consumption
- Demand for primary energy in India is to increase 2-fold by 2035 to 1,516 million tonnes of oil

**Policy support**

- Government has enacted various policies such as the New Exploration Licensing Policy (NELP) & Coal Bed Methane (CBM) policy to encourage investments
- New domestic natural gas pricing guidelines has been enforced on 10<sup>th</sup> January 2014

**Oil consumption in India (2010-17)**

- Oil consumption has expanded at a CAGR of 2.98 per cent during FY2008–17P to reach 4.43 mbpd by 2017.
- Due to the expected strong growth in demand, India’s dependency on oil imports is likely to increase further.
- Rapid economic growth is leading to greater outputs, which in turn is increasing the demand of oil for production and transportation.
- With rising income levels, demand for automobile is estimated to increase, in turn leading to augmented demand for oil and gas.

**Imports and domestic oil production in India**

- In FY18, total crude oil imports were valued at US\$ 87.37 billion as compared to US\$ 70.71 billion in FY17. In FY18, crude oil imports increased to 4.41 mbpd from 4.27 mbpd in FY17.
- India’s crude oil production reached 0.64 mbpd in 2017-18.
- In March 2017, the Indian Strategic Petroleum Reserve Ltd (ISPRL) and Abu Dhabi National Oil Company (ADNOC) of UAE signed an agreement, to fill up 0.81 MMT or 5,860,000 million barrels of crude oil at ISPRL storage facility at Mangalore, Karnataka. In May 2018, India received the first shipment of 2 million barrels of crude oil from ADNOC.

**Domestic gas production and imports (bcm)**

- India’s LNG imports increased at a CAGR of 8.14 per cent during FY08–FY18.
- Domestic gas production in India during 2017-18 increased to 31.83 bcm from 30.92 bcm in 2016-17.
- Auto LPG consumption advanced 0.1 per cent or about 20 MT in April 2018. Domestic production accounts for more than three-quarter of the country’s total gas consumption

**EXPLORATION AND DEVELOPMENT ACTIVITIES**

- During FY17(1), 1,245,000 metres of wells were explored and developed and 540 wells were drilled in the country.
- State-owned oil companies undertake most of the upstream drilling and exploration work.
- In January 2018, after a gap of eight years, the Central Government auctioned 55 exploration blocks which offered a record area for prospecting of oil and gas. This was the first auction under OALP that allows companies to carve out blocks of their choice with a view to bringing about 2.8 million square kilometres of unexplored area in the country under exploration.

**CERTIFICATE ON CORPORATE GOVERNANCE**

The Members of  
**GLOBAL VECTRA HELICORP LIMITED,**  
A-54, Kailash Colony  
New Delhi – 110048

We have examined the compliance of the conditions of Corporate Governance by **GLOBAL VECTRA HELICORP LIMITED** ('the Company') for the year ended on March 31, 2018 as stipulated in Regulation 27 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "said Regulations") and the Listing Agreement of the said Company with the Stock Exchanges.

The compliance of the conditions of Corporate Governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulation 27 of the said Regulations except for appointment of woman director to be appointed as per section 149(1) of the Companies Act, 2013 and Regulation 17(1)(a) of the said Regulations. The management believes that Company will get the security clearance from the Ministry of home affairs through the Ministry of Civil Aviation regarding appointment of women director.

We state that as per the records maintained by the Registrars and Share Transfer Agents of the Company and presented to the Stakeholder Relationship Committee, no investor grievances are pending for a period exceeding one month against the Company. We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS OF****GLOBAL VECTRA HELICORP LIMITED****Report on the Ind AS Financial Statements**

We have audited the accompanying Ind AS Financial Statements of **GLOBAL VECTRA HELICORP LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Ind AS Financial Statements").

**Management's Responsibility for the Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these Ind AS Financial Statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS Financial Statements.

**Basis for Qualified Opinion**

As detailed in Note no. 41 to the Ind AS Financial Statements, a customer has disputed service tax levied by the Company on reimbursement of expenses aggregating to Rs. 252.37 Lakhs (service tax liability Rs. 238.52 Lakhs upto June 30, 2017 and GST liability Rs. 13.85 Lakhs from July 2017 onwards). No provision has been made by the Company in respect of such outstanding as required by the accounting policies of the Company. However, Management believes that the Company has a strong case to collect the outstanding amounts. In the absence of a balance confirmation or other evidence, we are unable to comment on the recoverability of these amounts. Had the Company made the provision, the loss for the year would have been higher by Rs. 252.37 Lakhs and Trade Receivables as at that date would have been lower by Rs. 252.37 Lakhs.

**Qualified Opinion**

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, the aforesaid Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Ind AS, of the financial position of the Company as at March 31, 2018 and its financial performance including other comprehensive income, the changes in equity and its cash flows for the period ended on that date.

**Emphasis of Matters**

- a. We draw attention to Note no. 39 to the Ind AS Financial Statements, in respect of the order received from the Office of the Commissioner of Customs (Preventive) confirming the demand for differential duty of customs along with penalty aggregating to Rs. 2,621.95 lakhs. No provision has been made by the Company for the same nor the interest due thereon as at March 31, 2018, as the Management believes, based on a decision in the previous year from

Customs Excise and Service Tax Appellate Tribunal (CEST AT), West Zonal Bench, in favour of the Company on a similar matter and an opinion from an external legal expert, that the demand will be set aside by a higher appellate authority.

- b. As detailed in Note no. 36 to the abovementioned Statement, the charges for license fees on land levied by the Airports Authority of India (AAI) have been revised with effect from October 2014. The total amount claimed by AAI up to March 31, 2018, aggregates to Rs. 2,349.83 lakhs against which the Company has paid under protest an amount aggregating to Rs. 1,174.10 lakhs up to March 31, 2018. The Company believes that these demands are not reasonable and has consequently requested for arbitration and conciliation and has provided for differential revised charges to the extent of Rs. 1,175.73 lakhs based on Management's estimate subject to outcome of arbitration proceedings.

Our opinion is not modified in this regard.

**Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016, ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the said Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) Except for the effects of the matter described in the Basis of qualified opinion paragraph above, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

- d) In our opinion, except for the effects of matter described above, the aforesaid Ind AS Financial Statements comply with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with relevant rules issued thereunder.
- e) On the basis of the written representations received from the Directors of the Company as on March 31, 2018 and taken on record by the Board of Directors, none of the Directors of the Company is disqualified as on March 31, 2018, from being appointed as a Director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i) The Company has disclosed the impact of pending litigations on its financial position in its Ind AS Financial Statements. Refer Note No. 36 and 39 to the Ind AS Financial Statements.
- ii) The Company has made provision, as required under the applicable laws or Accounting Standards for material foreseeable losses, if any, on long term contracts including derivative contracts. Refer Note No. 20, 26 and 51 to the Ind AS Financial Statements.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

**ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH 2018**

The Annexure referred to in paragraph 1 'Report on Other Legal and Regulatory Requirements' in our Independent Auditor's Report to the members of the Company on the Ind AS Financial Statements for the year ended March 31, 2018:

**Statement on Matters specified in paragraphs 3 and 4 of the Companies (Auditor's Report) Order, 2016:**

1. Fixed Assets:

- a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner. However, the process of physical verification needs to be formally documented. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, the Company has physically verified certain fixed assets during the year and no material discrepancies were noticed on such verification.

- c) According to the information and explanations given to us and on the basis of the records examined by us, the title deeds of immovable properties are held in the name of the Company.

2. We have been informed that the Management has conducted physical verification of inventory at reasonable intervals. However, the process of physical verification needs to be formally documented. No material discrepancies were noticed on such verification.

3. During the year, the Company has not granted any loans, secured or unsecured to companies, firms, LLP or other parties covered in the register maintained under Section 189 of the Companies Act, 2013. Therefore, the provisions of sub-clauses (a), (b) and (c) of paragraph 3 (iii) of the Order are not applicable.

4. According to the information and explanations given to us, the Company has not advanced any loans or given guarantee or provided any security to parties covered under section 185 of the Companies Act, 2013.

5. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73 to 76, or any other relevant provisions of the Companies Act, 2013 and the rules framed thereunder.

6. According to the information and explanations given to us, the Central Government has not prescribed maintenance of cost records under sub section (1) of section 148 of the Companies Act, 2013, in respect of any of the activities of the Company.

7. Statutory Dues:

- a) According to the information and explanations given to us and on the basis of the records examined by us, the Company is generally regular in depositing undisputed statutory dues, including dues pertaining to Investor Education and Protection Fund, Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax, Sales-tax, Service Tax, Duty of Customs, Duty of Excise, Value added tax, Cess and any other statutory dues with the appropriate authorities wherever applicable except few cases where there have been slight delays. We have been informed that there are no undisputed dues which have remained outstanding as at the last day of the financial year, for a period of more than six months from the date they became payable except:

Name of the Statute	Nature of Dues	Amount (Rs. in Lakhs)	Period to which the amount relates	Due Date	Date of Payment
The Finance Act, 1994	Service tax	65.57	2012-13	Various	Not yet paid
The Finance Act, 1994	Service tax	88.07	2013-14	Various	Not yet paid
The Finance Act, 1994	Service tax	25.97	2014-15	Various	Not yet paid
The Finance Act, 1994	Service tax	147.22	2015-16	Various	Not yet paid
The Finance Act, 1994	Service tax	23.80	2016-17	Various	Not yet paid
The Finance Act, 1994	Service tax	12.25	2017-18	Various	Not yet paid
Goods and Service Tax Act	Goods and Service tax	4.34	2017-18	Various	Not yet paid

- b) According to the information and explanations given to us, there are no dues of Income-tax, Goods and Service Tax, Sales tax, Service tax, Duty of Customs, Value added tax or Cess outstanding on account of any dispute, other than the following:

Name of the Statute	Nature of Dues	Amount (Rs. in Lakhs)	Period to which the amount relates	Forum where dispute is pending
The Finance Act, 1994	Service Tax	423.61	May 16, 2008 to March 31, 2010	High Court
	Interest	1,143.84	May 16, 2008 to March 31, 2018

		2,121.95 (Includes amount aggregating to Rs. 538.26 Lakhs paid as duty under protest)	2007-08	

8. According to the information and explanations given to us and based on the documents and records produced before us, there has been no default in repayment of dues to financial institutions or banks. There are no dues to debenture holders or Government.
9. According to the information and explanations given to us and the records examined by us, the term loans obtained by the Company were applied for the purpose for which the loans were obtained. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year.
10. During the course of our examination of the books of account and records of the Company, to the best of our knowledge and belief and according to the information and explanations given to us by the Management, no fraud on, or by the Company, has been noticed or reported during the year.
11. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has paid / provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
12. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company; hence the provisions of Clause 3(xii) of the Order are not applicable to the Company.
13. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the Ind AS Financial Statements as required by the applicable accounting standards.
14. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with Directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
16. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

## ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH 2018

Referred to in Paragraph 2(f) 'Report on Other Legal and Regulatory Requirements' in our Independent Auditor's Report to the members of the Company on the Ind AS Financial Statements for the year ended March 31, 2018.

### **Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013.**

We have audited the internal financial controls over financial reporting of **GLOBAL VECTRA HELICORP LIMITED** ("the Company") as of March 31, 2018, in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the "Act" or the "Companies Act").

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Financial Statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and Directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind AS Financial Statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

**Notes to Financial Statements for the year ended 31st March 2018**

(Currency Indian Rupees)

**Note 1**

**Statement of significant accounting policies**

**A. General Information**

Global Vectra Helicorp Limited ('the Company') was incorporated in 1998 as a private limited company and was subsequently listed on 27 October 2006 the Bombay Stock Exchange and the National Stock Exchange.

The Company is mainly engaged in helicopter charter services for offshore transportation, servicing the oil and gas exploration and production sector in India. The Company is also engaged in helicopter charter services for onshore transportation.

**B. Basis of preparation of financial statements**

**a) Statement of compliance with Ind AS**

The financial statements of the Company comply with all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements up to and including the year ended 31 March 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

Accordingly, the transition to Ind AS has been carried out from the accounting principles generally accepted in India ("Indian GAAP") which is considered as the "Previous GAAP" for purposes of Ind AS 101. An explanation of how the transition to Ind AS has affected the Company's equity and its net profit or loss is provided in Note 50. These financial statements are the first financial statements of the Company under Ind AS.

All assets and liabilities are classified as current or non-current as per the company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

**b) Standards issued but not yet effective**

The Ministry of Corporate Affairs (MCA), on 28 March 2018, notified Ind AS 115, Revenue from Contracts with Customers (which is based on IFRS 15, Revenue from Contracts with Customers) as part of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The new standard is effective for accounting periods beginning on or after 1 April 2018, thus aligning the Ind AS 115 applicability date with the IFRS applicability date i.e. 1 January 2018.

Ind AS 115 replaces existing revenue recognition standards Ind AS 11, Construction Contracts and Ind

AS 18, Revenue and revised guidance note of the Institute of Chartered Accountants of India (ICAI) on Accounting for Real Estate Transactions for Ind AS entities issued in 2016.

The company expects no significant impact of Ind AS 115 and plans to adopt the new standard on the required effective date.

On 18 July 2017, the Accounting Standards Board (ASB) of the Institute of Chartered Accountants of India (ICAI) issued an Exposure Draft (ED) of Ind AS 116, Leases. Ind AS 116 is largely converged with IFRS 16. IFRS 16 is effective from 1 January 2019, with early adoption being permitted (as long as IFRS 15, Revenue from Contracts with Customers is also applied).

Ind AS 116 is expected to replace Ind AS 17 from its proposed effective date, being annual period's beginning on or after 1 April 2019.

The assessment of impact of Ind AS 116 as per the Exposure Draft on the Company is to be carried out.

**c) Historical cost convention**

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities including defined benefit plans - plan assets measured at fair value.

**d) Use of estimates and judgements**

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The areas involving critical estimates and judgements are:

- i. estimation of useful lives and residual value of Property, Plant and Equipment
- ii. estimation of defined benefit obligation
- iii. impairment of financial assets
- iv. recognition of deferred tax assets and deferred tax liabilities
- v. recognition and measurement of provisions and contingencies
- vi. recognition and measurement of Non-current assets held for sale

**C. Summary of significant accounting policies**

**a) Property, plant and equipment**

Property, Plant and Equipment are stated at cost of acquisition, including any attributable cost for bringing the asset to its working condition for its intended use, less accumulated depreciation/amortisation and impairment loss.

The cost of Property, Plant and Equipment comprises its purchase price, including import duties and other

non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as “Capital work-in-progress”.

Depreciation/amortization for the year is recognised in the Statement of Profit and Loss.

Depreciation on Property, Plant and Equipment (including assets acquired under finance leases) except leasehold improvements are provided on the straight-line method over the useful lives of assets as prescribed under Schedule II of the Act which in management’s opinion reflects the estimated useful economic lives of Property, Plant and Equipment. The estimated useful life of items of property, plant and equipment is mentioned below:

	Years
Hangar and administrative Building	15
Plant and equipment	15
Office equipment	5
Furniture and fixtures	10
Helicopters	20
Computers	6
Network and servers	6
Vehicles	8

Leasehold improvements in the nature of hangar and administrative building are amortised over the primary lease period or the useful life of the assets, whichever is shorter.

Major components of helicopters which require replacement at regular intervals are identified and depreciated separately over their respective estimated remaining useful life. Accordingly, overhaul costs of engines are depreciated over 5,000 hours, being their estimated useful life. Items such as Inventory spares are classified as Property, Plant and Equipment when they meet the recognition criteria in Ind AS 16.

Depreciation for the year is recognised in the statement of profit and loss. Losses arising from retirement or gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

The useful lives are reviewed by the management at each financial year-end and revised, if appropriate. In case of a revision, the unamortised depreciable amount is changed over the revised remaining useful life.

**Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

**Transition to Ind AS**

The Company has elected to measure certain Helicopters at its fair value and use that fair value as its deemed cost at the date of transition to Ind AS and

for other Helicopters previous GAAP revaluation that was broadly comparable to fair value under Ind AS has been considered as its deemed cost at the date of transition to Ind AS. Other items of Property, Plant and Equipment have been measured as per Ind AS 16 (see note 2A).

**b) Intangible assets**

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its purchase price including directly attributable costs less any accumulated amortisation and any accumulated impairment loss, if any.

Subsequent expenditure is capitalised only when it increases the future economic benefits from the specific asset to which it relates. An intangible asset is derecognised on disposal or when no future economic benefits are expected from its use.

Losses arising from retirement and gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss.

The assets are amortised on the straight-line method over a period of three years.

**c) Impairment of asset**

Assets are reviewed at each reporting date to determine if there is any indication of impairment. For assets in respect of which any such indication exists, the asset’s recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets (cash generating unit or “CGU”) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its net selling price. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses are recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists or has decreased, the assets or CGU’s recoverable amount is estimated. For assets other than goodwill, the impairment loss is reversed to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Such a reversal is recognised in the Statement of Profit and Loss; however, in the case of revalued assets, the reversal is credited directly to revaluation surplus except to the extent that an impairment loss on the same revalued asset was previously recognised as an expense in

the Statement of Profit and Loss. Impairment loss recognised for goodwill is not reversed in a subsequent period unless the impairment loss was caused by a specific external event of an exceptional nature that is not expected to recur and subsequent external events have occurred that reverse the effect of that event.

**d) Maintenance expenditure**

Helicopter maintenance expenses including repairs and maintenance that are required to be performed at regular intervals as enforced by the Director General of Civil Aviation (DGCA) and in accordance with the maintenance programme laid down by the manufacturers are debited to the statement of profit and loss as and when incurred.

**e) Inventories**

Inventories comprising of consumables and spares supplies, are valued at lower of cost and net realisable value. Cost is determined on the basis of specific cost method. Cost of inventory comprises of all cost of purchase and other incidental cost incurred in bringing the inventories to their present location and condition.

**f) Cash and cash equivalent**

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

**g) Revenue recognition**

Service income and reimbursement of expenses is recognised as and when services are rendered in accordance with the terms of the specific contracts, net of all contractual deductions. Revenue is recognised net of all taxes and levies.

Unbilled revenue' included in 'other current financial assets' represents services rendered for which billing is pending at the end of the reporting period.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

**h) Leases**

**I. As a Lessee**

**Operating lease**

Lease rentals under an operating lease are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

**Finance Lease**

Assets acquired under finance lease are recorded as an asset and liability at the inception of the lease and are recorded at an amount equal to lower of fair value of the leased asset and the present value of the future minimum lease payments.

**II. As a lessor**

Lease income from operating lease where the Company is a lessor is recognised in revenue on

straight line basis over the lease term unless the recipients are structured to increase in line with expected general inflation to compensate for the expected increase in inflationary cost increase.

**Accounting for arrangements in the nature of lease:**

Under appendix C to Ind AS 17, an entity may enter into an arrangement comprising a transaction or a series of related transactions, that do not take the legal form of lease but conveys a right to use an asset in return for a payment or series of payments. Arrangements meeting these criteria should be identified as either operating leases or finance leases. For determining whether an arrangement is, or contains, a lease shall be based on the substance of the arrangement and requires an assessment of whether:

- a) fulfilment of the arrangement is dependent on the use of specific asset or assets; and
- b) the arrangement conveys a right to use the asset.

The Company enters into agreements, comprising a transaction or series of related transactions that does not take the legal form of a lease but conveys the right to use the asset in return for a payment or series of payments. In case of such arrangements, the Company applies the requirements of Ind AS 17 – Leases to the lease element of the arrangement. For the purpose of applying the requirements under Ind AS 17 – Leases, payments and other consideration required by the arrangement are separated at the inception of the arrangement into those for lease and those for other elements.

**i) Foreign currency transactions and balances**

**i. Functional and presentation currency**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupee (INR), which is the Company's functional and presentation currency.

**ii. Foreign currency Transactions and Balances**

Transactions denominated in foreign currency are recorded at the exchange rates prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the Statement of Profit and Loss for the year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated into Indian rupees at the closing exchange rates on that date. The resultant exchange differences are recognised in the Statement of Profit and Loss except that exchange differences pertaining to long term foreign currency monetary items outstanding as on the transition date that are related to acquisition of depreciable assets are adjusted in

the carrying amount of the related Property, Plant and Equipment.

A foreign currency monetary item is classified as long term if the asset or liability is expressed in a foreign currency and it has an original maturity of one year or more.

**j) Financial Instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as embedded derivatives.

**I. Financial Assets:**

**Classification**

On initial recognition the Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

**Initial recognition and measurement**

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

**Financial assets at amortised cost**

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- i) the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- ii) contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

Financial assets included within the fair value through profit and loss (FVTPL) category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

**Equity investments**

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the Company's financial statements) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
  - i) the Company has transferred substantially all the risks and rewards of the asset, or
  - ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

**Impairment of financial assets**

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- i) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- ii) Trade receivables.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

**II. Financial Liabilities**

**Classification**

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities measured at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value with changes in fair value being recognised in the Statement of Profit and Loss.

**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortised cost (loans and borrowings, and payables), or as derivatives designated as hedging instrument in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/

losses attributable to changes in own credit risk are recognized in OCI.

**Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

This category generally applies to interest-bearing loans and borrowings.

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**Embedded Derivatives**

If the hybrid contract contains a host that is a financial asset within the scope Ind-AS 109, the Company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**Hedge Accounting**

The Company enters into USD sales contracts with Indian customers to hedge its risks associated with foreign currency fluctuations in USD lease payments. The Company treats such arrangements as embedded derivatives. The Company designates such contracts in a cash

flow hedging relationship by applying the hedge accounting principles. These contracts are stated at fair value at each reporting date. Changes in the fair value of these contracts that are designated and effective as hedges of future cash flows are recognised directly in Other Comprehensive Income ('OCI') and accumulated in "Effective portion of cash flow hedges" under Reserves and Surplus, net of applicable deferred income taxes and the portion that is not designated as hedges is recognised immediately in the Statement of Profit and Loss. Amounts accumulated in the "Effective portion of cash flow hedges" are reclassified to the Statement of Profit and Loss in the same period during which the forecasted transaction affects Statement of Profit and Loss. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

**k) Fair value measurement**

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. When one is available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Significant valuation issues are reported to the Company's audit committee.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred

**l) Employee benefit**

**i. Short-term employee benefits**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense at an undiscounted amount in the Statement of Profit and Loss as the related service is rendered by employees.

**ii. Post-employment benefits**

**Defined Contribution Plan**

The Company's contributions during the year to Provident Fund administered by government authority are recognized in the Statement of profit and loss.

**Defined Benefit Plan**

The Company's net obligation in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

**iii. Compensated absences**

Provision for compensated absences cost has been made based on actuarial valuation by an independent actuary at balance sheet date.

The employees of the Company are entitled to compensated absences. The employees can carry-forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date.

**m) Income taxes**

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

**Current taxes**

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and set off the liability on a net basis or simultaneously.

**Deferred taxes**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used. Deferred tax is measured at the tax rates that are expected to be applied to deferred tax assets when they are realised or deferred tax liabilities when they are settled, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by

the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**n) Earnings per share ('EPS')**

Basic and diluted earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises of weighted average number of shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which may be issued on conversion of all dilutive potential shares, unless the results would be anti – dilutive.

**o) Provisions and contingent liabilities**

Provisions are recognized when the Company recognizes that it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

**p) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The CODM assesses the financial performance and position of the company, and makes strategic decisions.

**q) Non-Current Assets held for sale**

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortized.

In March 2018, management entered into a contract for sale of one of its Aircraft including all communications equipment per Avionics Equipment, accessories, instruments and other items of equipment installed in such Aircraft. The Aircraft shall be delivered to the purchaser at the delivery location by 20th April 2018 or such as other date as mutually agreed between purchaser and the company.

Helicopter classified as held for sale during the reporting period was measured at the lower of its carrying amount and fair value less costs to sell at the time of the reclassification, resulting in the recognition of a writedown of Rs. 266.21 lakhs as other expenses in the statement of profit or loss.

**Demand notice issued by the Customs authorities**

During the year ended 31 March 2009, the Office of the Commissioner of Customs (Preventive) had seized three helicopters for alleged non-compliance of the duty waivers given to non-scheduled operators (passenger). The Company had received a Show Cause Cum Demand Notice (SCN) citing an amount of Rs 2,379.24 Lakhs (previous year: Rs 2,379.24 Lakhs) towards custom duty under Section 28 of the Customs Act, 1962 and applicable interest and penalty thereon. Pursuant to the receipt of the said SCN, the Commissioner of Customs (Preventive) had confirmed a demand of Rs 2,621.95 Lakhs (previous year: Rs 2,621.95 Lakhs) towards differential duty of customs and penalty thereon for two helicopters. The management believes that the Company is in compliance with the relevant customs and other regulatory guidelines in this respect, based on decision in the previous year from Custom Excise and Service Tax Appellate Tribunal (CESTAT) West Zonal Bench, in favour of the Company on a similar matter and on an opinion from an external legal expert and the demand being contested by the Company will be set aside by the higher appellate tribunal. An amount aggregating Rs 538.26 Lakhs (previous year: Rs 538.26 Lakhs) has been paid as duty under protest during the year ended 31 March 2010.

**Note - 40**

**Transfer Pricing**

The Company's international transactions with related parties are at arms length as per the independent accountants report for the year ended 31 March 2018. Management believes that the Company's international transactions with related parties post 31 March 2017 continue to be at arm's length and that the transfer pricing legislation will not have any impact on these financial statements, particularly on amount of tax expenses and that of provision of taxation. Management is in the process of obtaining the transfer pricing study / report for the year ended 31 March 2018.

**Employee benefit**

The Company contributes to the following post-employment defined benefit plans in India.

**(i) Contribution to provident fund and ESIC:**

The Company recognised Rs.86.80 Lakhs (previous year: Rs 84.91 Lakhs) for retirement benefit contributions in the Statement of Profit and Loss.

**(ii) Leave Wages**

Amount of Rs 36.13 Lakhs (previous year: Rs 41.98 Lakhs) is recognised as an expense and included in "Employee benefits expense".

**(iii) Defined benefit plan and long term employment benefit**

**A. General description**

**Gratuity (Defined benefit plan)**

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of services gets gratuity on death or resignation or retirement at 15 days salary (last drawn salary) for each completed year of service.

**Leave wages (Long term employment benefit)**

Eligible employees can carry forward leave with a maximum accumulation of thirty (30) days. All leave balances in excess of thirty (30) days at the end of the calendar year are compulsorily encashed on the basis of basic salary last drawn. Leave wages are also payable to all eligible employees at the rate of daily basic salary on accumulated leave at the time of death / resignation / retirement or on attaining superannuation age.

**Sick leave (Long term employment benefit)**

The sick leave is not encashable and can be accumulated till 90 days for employees other than pilots, whose leave balance will lapse at the end of the year.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

**C. Plan assets**

Plan assets comprise the following :

	31-Mar-18	31-Mar-17	01-Apr-16
Investment in scheme of insurance	100%	100%	100%

**D. Defined benefit obligations**

**i. Actuarial assumptions**

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	31-Mar-18	31-Mar-17	01-Apr-16
Discount rate	7.80%	7.22%	7.86%
Expected rate of return on plan assets	7.80%	7.22%	7.86%
Salary escalation	5.00%	5.00%	5.00%
Mortality pre retirement	Indian Assured Lives Mortality (2006-08) (modified) Ult	Indian Assured Lives Mortality (2006-08) (modified) Ult	Indian Assured Lives Mortality (2006-08) (modified) Ult
Mortality post retirement	N.A	N.A	N.A
Employee turnover rate (for different age groups)	9.00%	9.00%	4.00%

The estimate of future salary increases, considered in actuarial valuation takes into consideration inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the market prices prevailing on that date, applicable to the period over which the obligation is to be settled.

Weighted average duration of the Projected Benefit Obligation is 7 years.

**E. Sensitivity analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31-Mar-18	31-Mar-17
	Gratuity	Gratuity
+ 1% change in rate of Discounting	(35.40)	(30.87)
- 1% change in rate of Discounting	38.96	34.22
+ 1% change in rate of Salary increase/ inflation	31.78	34.64
- 1% change in rate of Salary increase/ inflation	(30.81)	(31.78)
+ 1% change in rate of Employee Turnover	6.42	2.95
- 1% change in rate of Employee Turnover	(7.07)	(3.35)

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

**Other long term employee benefits.**

Compensated absences are payable to employees. The charge towards compensated absences for the year ended 31 March 2018 based on actuarial valuation using the projected accrued benefit method is Rs.90.68 Lakhs ( 31st March 2017 : Rs.83.04 Lakhs, 01st April 2016 : Rs. 68.51Lakhs).

Financial instruments – Fair values and risk management

A. Accounting classification and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities if the carrying amount is a reasonable approximation of fair value.

A substantial portion of the Company's long-term debt has been contracted at floating rates of interest, which are reset at short intervals. Accordingly, the carrying value of such long-term debt approximates fair value.

**B. Measurement of fair values**

The three levels of the fair-value-hierarchy under Ind AS 107 are described below:

**Level 1:** Level 1 heirarchy includes financial instruments measured using quoted prices.

**Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

**Notes to Financial Statements for the year ended 31st March 2018**

(All amounts are in lakhs, except share data and as stated)

The following tables show the valuation techniques used in measuring Level 2 fair values.

**Financial instruments measured at fair value**

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Derivatives	Market valuation techniques : The fair value is determined using forward rates at the balance sheet date	Not applicable	Not applicable
Other financial assets and financial liabilities	The fair value of other financial assets and financial liabilities falling into level 2 have been determined based on observable inputs available for financial assets and financial liabilities.	Not applicable	Not applicable

**C. Fair value of Financial assets and liabilities measured at amortised cost**

The carrying amounts of cash and cash equivalents, other bank balances, current loans, trade receivables, short-term borrowing, trade payables, other short term financial assets and financial liabilities are considered to be the same as their fair values due to their short-term nature.

- i). The carrying amounts of cash and cash equivalents, other bank balances, current loans, trade receivables, short-term borrowing, trade payables, other short term financial assets and financial liabilities are considered to be the same as their fair values due to their short-term nature.
- ii). The Company's borrowing have been contracted at floating rate of interest, which gets reset periodically based on the market movements. Accordingly, the carrying value of such borrowings approximates fair value.
- iii). The other non- current financials assets include bank deposits (due for maturity beyond twelve months from the reporting date), interest accrued but not due on bank deposits. The carrying value of such borrowings approximates fair value at reposting date.

**Note - 47**

**Financial instruments – Fair values and risk management**

**B. Financial risk management**

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

**i. Risk management framework**

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

**ii. Credit Risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

**Trade and other receivables**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

**Notes to Financial Statements for the year ended 31st March 2018**

(All amounts are in lakhs, except share data and as stated)

**Cash and cash equivalents**

The Company held cash and cash equivalents with credit worthy banks and financial institutions of INR 684.11 Lakhs as at 31st March 2018 & INR 304.39 Lakhs as at 31st March 2017 and INR 170.29 Lakhs as at 1st April 2016. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

**Impairment**

The management has written off the following amounts of trade receivables during the years:

Particulars	Amount	
	March 31, 2018	March 31, 2017
Amount of impairment	-	17.40

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk, including underlying customers' credit quality and prevailing market conditions.

**Note - 48**

**Financial instruments – Fair values and risk management**

**iii. Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The Company has obtained fund and non-fund based working capital lines from various banks. The Company also constantly monitors, as and when required, funding options available in the debt and capital markets with a view to maintain financial flexibility.

Financial instruments – Fair values and risk management

iv. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk.

Currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the Statement of Profit and Loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

The Company, as per its risk management policy, uses foreign exchange and other derivative instruments primarily to hedge foreign exchange exposure. The Company does not use derivative financial instruments for trading or speculative purposes.

**Financial Risk Management**

**(ii) Interest rate risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk.

**Interest rate sensitivity - fixed rate instruments**

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of change in market interest rates.

Notes to Financial Statements for the year ended 31st March 2018

(All amounts are in lakhs, except share data and as stated)

**Interest rate sensitivity - variable rate instruments**

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased / decreased equity and profit or loss by amounts shown below. This analyses assumes that all other variables, in particular, foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

**(a) Interest rate exposure**

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period is as follows:

	31-Mar-18	31-Mar-17	01-Apr-16
<b>Fixed-rate instruments</b>			
Financial assets	3,969.98	3,422.97	4,064.94
Financial liabilities	1,345.61	1,947.29	527.37
<b>Variable-rate instruments</b>			
Financial assets	-	-	-
Financial liabilities	12,905.76	15,441.31	17,802.81

As at the end of the reporting period, the Company had the following variable rate borrowings outstanding:

	31-Mar-18		31-Mar-17		01-Apr-16	
	Balance	% of total loans	Balance	% of total loans	Balance	% of total loans
Borrowings	12,905.76	90.56%	15,441.31	88.80%	17,802.81	97.12%
<b>Net exposure to cash flow interest rate risk</b>	<b>12,905.76</b>		<b>15,441.31</b>		<b>17,802.81</b>	

**(b) Sensitivity**

	Impact on profit before tax		
	31-Mar-18	31-Mar-17	01-Apr-16
Interest rates - Increase by 100 basis points (100 basis points)	(129.06)	(154.41)	(178.03)
Interest rates - decrease by 100 basis points (100 basis points)	129.06	154.41	178.03

**Note - 51**

**Hedge accounting**

The Company's risk management policy is to hedge its USD lease payments, thereby the company's sales contracts are entered in USD. In these type of contracts, there is an embedded derivative element which helps the company in hedging the currency risk. Such contracts are generally designated as cash flow hedges.

The embedded derivative contracts are denominated in the same currency as the underlying hedged item, therefore the hedge ratio is 1:1. Most of these contracts have a maturity of more than 12 months from the reporting date.

The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The Company assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in the cash flows of the hedged item using the hypothetical derivative method.

In these hedge relationships, changes in timing of the hedged transactions is the main source of hedge ineffectiveness.

#### Capital Management

The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios to support its business and maximize shareholder value. The Company makes adjustments to its capital structure based on economic conditions or its business requirements. The funding requirements are met through a mixture of equity and other borrowings. The Company's policy is to use short-term and long-term borrowings to meet anticipated funding requirements. The Company monitors capital using the metric of Net Debt to Equity. Net Debt is defined as borrowings less cash and cash equivalents and fixed Deposits.

#### Transition to Ind AS:

For the purposes of reporting as set out in Note 1, we have transitioned our basis of accounting from Indian generally accepted accounting principles ("IGAAP") to Ind AS. The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2017 and in the preparation of an opening Ind AS balance sheet at 1 April 2016 (the "transition date").

In preparing our opening Ind AS balance sheet, we have adjusted amounts reported in financial statements prepared in accordance with IGAAP. An explanation of how the transition from IGAAP to Ind AS has affected our financial performance, cash flows and financial position is set out in the following tables and the notes that accompany the tables. On transition, we did not revise estimates previously made under IGAAP except where required by Ind AS.

#### A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from Indian GAAP to Ind AS :

##### 1) Fair valuation as deemed cost for certain items of Property, Plant and Equipment

The Company has elected to measure certain Helicopters at its fair value and use that fair value as its deemed cost at the date of transition to Ind AS and for other Helicopters previous GAAP revaluation that was broadly comparable to fair value under Ind AS has been considered as its deemed cost at the date of transition to Ind AS.

Other items of Property, Plant and Equipment have been measured as per Ind AS 16.

##### 2) Arrangement containing a lease

IND AS 101 provides the option to determine whether an arrangement existing at date of transition is, or contains, a lease based on the facts and circumstances at that date and not at lease start date.

Accordingly, the company has elected to determine arrangement existing at the date of transition and not at lease start date.

##### 3) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

##### 4) Classification and measurement of financial assets

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist on the date of transition to Ind AS.

##### 5) Derecognition of financial assets and financial liabilities

The Company has opted to apply the exemption available under Ind AS 101 to apply the derecognition criteria of Ind AS 109 prospectively for the transactions occurring on or after the date of transition to Ind AS.

#### B. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity and total comprehensive income for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

<b>Total Comprehensive Income under Ind AS</b>		<b>378.61</b>

**Reconciliation of Statement of Cash Flows for the year ended 31st March, 2017**

There were no material differences between the Statement of Cash Flows presented under Ind AS and under IGAAP.

**Notes to the reconciliation:**

- Under the previous GAAP, preference shares are accounted under Equity share capital. Under Ind AS, the portion of redeemable non convertible preference share is accounted as liability component of compound financial instrument and remaining portion is accounted in "Other Equity" as equity portion of the compound financial instrument. Under Ind AS, interest part of the liability component of the compound financial instrument is accounted as interest expense under finance cost.
- Under the previous GAAP, interest free lease security deposit are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value. Accordingly the company has fair valued these security deposit under Ind AS. Difference between transaction value and fair value of the security deposit has been recognised as prepaid expenses.
- On the date of transition to Ind AS, the Company has elected to measure certain Helicopters at its fair value and use that fair value as its deemed cost at the date of transition to Ind AS. Accordingly, the Company has recognised fair value changes of INR 4,907 lakhs as on April 01, 2016 and also recognised deferred tax liability of INR 1,698 lakhs. On account of aforesaid adjustments, the Company has charged additional depreciation of INR 408 lakhs and has reversed deferred tax liability of INR 141 lakhs, during the year 2016-17.
- The Company has adopted hedge accounting prospectively from transition date as per Ind AS 109. Consequently, the Company has fair valued embedded derivatives on transition date and difference between the fair value of such contracts and previous GAAP carrying amount have been recognised in the retained earnings in the opening Ind AS balance sheet.
- Under previous GAAP, the Company recognises lease rent as per the amounts specified in the contract. Under Ind AS, the Company is recognising lease rents on a straight line basis, provided the escalation is not in line with general inflation in India.

**Notes to Financial Statements for the year ended 31st March 2018**

(All amounts are in lakhs, except share data and as stated)

- 6 Under previous GAAP, the transaction cost on the borrowing is expensed off as and when incurred. Under Ind AS, transaction cost incurred towards origination of borrowing to be deducted from the carrying amount of borrowing on initial recognition. The costs are recognised in the Statement of Profit and Loss over the tenure of the borrowing as part of the interest expense as result of the adjustment.
- 7 Under the previous GAAP, the Company has recognised certain expenses in the financial year subsequent to the year to which the expenses pertain as exceptional item. Under Ind AS, those expenses have been recognised in the year to which it pertains with a corresponding adjustment to relevant head in Statement of Profit and Loss and retained earnings respectively.
- 8 In the financial statements prepared under Previous GAAP, deferred tax was accounted as per the income statement approach which required creation of deferred tax asset/liability on temporary differences between taxable profit and accounting profit. Under Ind AS, deferred tax is accounted as per the Balance Sheet approach which requires creation of deferred tax asset/liability on temporary differences between the carrying amount of an asset/liability in the Balance Sheet and its corresponding tax base.

The application of Ind AS has resulted in recognition of deferred tax on new temporary differences which were not required to be recognised under Previous GAAP. In addition, the above mentioned transitional adjustments have also led to temporary differences and creation of deferred tax thereon.
